

The background features a complex network of interconnected nodes and lines, with nodes in various colors (red, orange, purple, blue, green) and lines in light grey. This network is superimposed on a white silhouette of a city skyline at the bottom of the page. The overall aesthetic is clean and modern, representing a digital or blockchain network.

Decentralized Blockchain Technology

Bringing change in Tourism Industry by 「**Tebura**」

Hands free travel association.

Aim of Tebura

The aim of Tebura is to reduce the luggage during traveling time so that travelers can enjoy sightseeing by holding the hands of their special one instead of holding large luggage.

Tebura network and offerings to Tourism Industry

In order to provide a wonderful travel experience all over the world Tebura is working to build a network that will spread luggage free tourism around the world. To achieve this purpose Tebura has launched a Luggage Free tourism association that is connected with local and regional offices. At the same time Tebura will provide open source software that helps to spread co-operation among the partners.

Mission of Tebura

It is almost impossible to enjoy a wonderful journey if you have to carry heavy luggage. What if local people could help travelers to find accommodation, good restaurants and also help during sightseeing? The problem will be solved!

The mission of Tebura is to involve local people to solve the problems of travelers and to make their travel more wonderful and interesting.

Tebura is trying hard to make an environment helpful for travelers.

Usage of Token

1

Luggage Storage Service

Tebura provides users with a service that allows them to reserve spaces for luggage storage

2

Travel Related Service

Tebura provides travel related services for its users

3

ICO Support Service

You can use our token for your ICO project. Ex. marketing and development.

* Token usages listed are merely plans and subject to change

ICO (Initial Coin Offering) status of Tebura

01

Non-Profit corporation view

Tebura generates revenue from the business of SamePage Co. Ltd. Tebura will launch a non-profit General Association for tourism and operate as a non-profit organization. Tebura create another network which will handle blockchain activities.

Release of free access of network and software

The network that will be developed anyone can access and the software that will be developed anyone can download and use free of charge.

Raised funds will be used for management of non-profit organization

All funds will be collected through sales of token and will be used for management of non-profit organization, future development and marketing.

Reason behind non-profit

◇ In order to achieve mission rather than profit

Our mission is to develop and expand our network and reduce our competitors that's why we focus so much on our vision rather than profit.

◇ Increase return to collaborators

The second purpose of non-profit view is to construct the network free of charge and to provide software free of charge so that anyone can develop it. As a result return of earned profit will be maximized.

ICO (Initial Coin Offering) status of Tebura

02

As a Japanese corporation aim to do fully-compliant ICO

Various restrictions have been set in Japan which make ICOs (Initial Coin Offerings) difficult to do.

To prevent fraudulent activities external audit is strictly required which creates a problem for startups to launch ICOs.

To avoid any types of problem we will actively disclose information and faces and names of the members. Though an ICO represents many challenges, Tebura is working hard to conduct an ICO by facing those challenges .

ICO (Initial Coin Offering) status of Tebura

03

Convincing and Fair investment

Explicit explanation of Token Valuation

During the token sale time, the price of the token is specified.

We will explain the reason of reasonable price of token.

Representative Takagi has abundant experiences such as meet-up and contest speech both domestic and international.

- **Japanese cryptocurrency influencer list provided: 1.5 million yen**

Information about Private Sale

①

Private Sale Enforcement

We were initially looking to hold a public sale but to make the project faster we have decided to instead run a private sale and collect funds.

To sell in the public market, companies need to be listed in the exchange market and must exchange in the exchange market first.

This is a problem which can be solved by Tebura by holding a private sale.

Pre-Sale

Public Sale

Resale in Market according to development progress

Private Sale Guidance ②

Private Presale sales requirement

【Private Sale】

Unit price: 0.4 yen / piece

Bonus: 50%

Volume Bonus: 10% purchase over 10 million yen

Lock-up (distributed after a specified period): 6 months from payment date

Minimum purchase price: 1 million yen

Maximum purchase price: 20 million yen

Hard cap: 80 million yen

Estimated Market Value: Approximately 800 million yen

【Whitelist Sale】

Unit price: 0.4 yen / piece

Bonus: 40%

Lock-up (distributed after designated period): 3 months from payment date

Minimum purchase price: 20,000 yen

Maximum purchase amount: 99 million yen

Hard cap: 20 million yen

Estimated Market Value: Approximately 850 million yen

Private Sale Information

3

Valuation (Approximate value)

Tebura's valuation during the private sale is set at 800 Million Yen

This valuation is calculated by the following formula:

Valuation Amount= Total number of tokens scheduled to be issued X Unit price per token (Market price after listing on the exchange)

Tebura is planning to issue 3,000,000,000 NC (Ninja Coin). The evaluation value is 800 Million Yen and per unit price set is 8 Yen.

※Number may change later.

However the value is calculated by assumption. Actual value will be calculated based on the actual price of market and compared to other companies here in Japan.

Example ① ALIS: 3 billion yen (total number of tokens planned to be issued: 75 million ALIS × market price 40 yen / JPY)

Example ② QASH: 70 billion yen (total number of tokens planned to be issued: 1 billion QASH × market value 70 yen / JPY)

Example ③ ZILLA: 780 million yen (total number of tokens planned to be issued: 60 million ZLA × market price 13 yen / JPY)

Token Allocation Schedule

◆ Token sales ratio : 68.85%

[Breakdown]

- Sales to angel investors : 0.68 %
- Private sales : 10.00 %
- Whitelist sales : 2.33 %
- Sales by ICO : 8.33 %
- Next stage reserve : 47.50 %

Ninja Coin
Token Name : NinjaCoin (NC)

◆ Tebura Team Members : 15.01%

[Breakdown]

- Founder and partners : 13.30%
- Stock pool option : 1.85%

◆ Luggage free travel association : 10% use for future development of partner companies and stores related with tourism business

◆ Distribution through luggage free tourism cooperative promotional activities (Bounty Campaign) : 2 %

- Bounty bonus on private sale : 1% → Part of marketing for private and whitelist sale
Distribution done to general users as a part of campaign
- Bounty bonus on distribution of token sales : 1% → As a part of token sale marketing campaign activity
It will be distributed to general users who already participated

◆ Airdrop Bonus : 4%

- It will be distributed to the tourists and travelers who will participate to promote Tebura service and development of tourism in future.

◆ Angel Investor Round : This round already finished

0.68% of token allotted to the angel investors who already invested fund to conduct ICO project.

◆ Private Sale, Whitelist Sale, Public Sale of Token

We will sell 18.31% of token to raise fund of 200 million Yen (as per plan)
The market capitalization at the time of public sale is set at 1.2 billion Yen.
Private and whitelist sell will be done on the basis of first come first serve.

◆ Schedule of next stage (after 2019)

The luggage free travel association will need fund to continue the development of the tourism industry and entrepreneurial partnership and also promotion of store operation.

50% of the token will be sold at the given future specific time period.

Tebura is not using traditional business model that focus on making profit through centralization rather it is using non-profit format to construct an autonomous decentralized network along with open source application.

◆ Marketing initiatives

I have made a list of famous social media people of Japan in order to improve Tebura's awareness of the society. We are planning to involve 600 people in our promotional work and budget for our promotional work is 1 million Yen.

We are planning to allocate budget as required.
